A Short Shoe Talk

O ALL WEARERS OF SHOES-men, women and children---did you ever think about shoes long enough to realize that, with all the American boast of superiority in shoe-making, there are only two kinds of shoes made: [1] Shoes to sell at any old price, fit and quality not entering into the matter at all, and [2] Shoes of quality, with fit and finish considered as an essential element of successful

shoe-making, with a reasonable cost to the wearer. The first kind can be bought at any store --- most shoe makers make them and most retailers sell them for the profit there is in the making and selling; but the second kind, the kind that are guaranteed to wear satisfactorily, fit perfectly, and give the foot that elegant appearance desired by all well dressed persons, are only made by a few manufacturers, and the sale is confined to such retailers as will forego large profits that their customers may wear the best shoes at a minimum cost. THE GLOBE STORE is the only store is Albuquerque carrying shoes of quality, with fit and finish considered as an essential element of successful shoe making. At the St. Louis Exposition a committee of experts awarded the Grand Prize---the highest prize that could be given --- over all other competitors --- to the makers of the famous
